Our reference: 502-2016-00056276/ AR-16-SU-053490-01-EN  
Client Sample Code: 20160904  
Sample described as: Ginseng Root Extract  
Sample Packaging: Sealed aluminum foil bag  
Sample reception date: 13-Oct-2016  
Analysis starting date: 13-Oct-2016  
Analysis ending date: 17-Oct-2016

Arrival Temperature (°C) 22.6 Sample Weight 123g

	Results	Unit	LOQ	LOD	Results on fresh product	Guidelines
SU301 Concentration factor						
Concentration factor	<b>5</b>					
SU324 Pesticides herbs, spices, dried products Method: Internal Method, GC-MS						
Screened pesticides	<b>Not Detected</b>	mg/kg				
SU323 Pesticides herbs, spices, dried products Method: EN 15662:2008						
Propamocarb	<b>0.010</b>	mg/kg	0.01		0.002mg/kg	0.05
Other screened pesticides	<b>Not Detected</b>	mg/kg				

### COMMENT

The comment refers to the tested sample and relates only to the investigated parameters.

The analysed sample can be classified as processed food which is concentrated during processing according to article 20 of regulation (EC) 396/2005 (regulation on maximum residue levels in food and feed). Therefore the corresponding Maximum Residue Levels have to be calculated considering a concentration factor of 5.

Our comment is that analysed sample is in accordance with the requirements of regulation (EC) 396/2005 (regulation on maximum residue levels in food and feed) in its currently valid version.

We do not accept responsibility for decisions taken on the basis of our reports and comments.

### List of screened molecules (\* = limit of quantification)

## 结论

The comment refers to the tested sample and relates only to the investigated parameters.

The analysed sample can be classified as processed food which is concentrated during processing according to article 20 of regulation (EC) 396/2005 (regulation on maximum residue levels in food and feed). Therefore the corresponding Maximum Residue Levels have to be calculated considering a concentration factor of 5.

Our comment is that analysed sample is in accordance with the requirements of regulation (EC) 396/2005 (regulation on maximum residue levels in food and feed) in its currently valid version.

We do not accept responsibility for decisions taken on the basis of our reports and comments.
